

INTRODUCING

MarketView Smart Scan!

MarketView Smart Scan is an AI-powered marketplace risk assessment solution that delivers a holistic view of the trending risks in your platform. Through intelligent analysis of your marketplace data, it enables an automated, scalable risk-based approach.

AUTOMATION

Automatically scan your marketplace and highlight violations without manual effort.

CLARITY

User friendly dashboard highlights seller and product risk levels at a glance, to quickly prioritize attention and resources.

RISK IQ

comprehensive risk, screening for dozens of risk categories.

FLEXIBILITY

Run scans on-demand or establish a cadence to suit your specific risk profile.

NO INTEGRATION

Get started quickly—no tech setup required.

Instant risk clarity with zero tech lift

Select

Choose key categories — or let EverC do it for you.

Scan

Scans thousands of product listings to identify risks at scale.

Analyze

See violation breakdowns, risk scores, and track actions — all in one place.

Visualize

Explore insights in the EverC UI, designed for speed and simplicity.
